

MODPACK SYSTEM SRL

The unique entity identifier used in SAM.gov has changed.

The federal government's unique entity identifier changed from the DUNS Number to the Unique Entity ID (generated by SAM.gov).

- The Unique Entity ID is a 12-character alphanumeric ID assigned to an entity by SAM.gov.
- The DUNS Number has been removed from SAM.gov as part of this transition.
- The new unique entity ID is required for entity registration, searching, and data entry in SAM.gov.

Your Company's Unique ID Number is **GAFEHNTBK8E4**.

NCAGE (NATO Commercial and Government Entity)

The Commercial and Government Entity (CAGE) Code is a five-character ID number used extensively within the federal government and assigned by the Defense Logistics Agency (DLA). The CAGE code is used to support a variety of computerized systems throughout the government and provides a standardized method of identifying a given facility at a specific location. The code may be used for a facility clearance or a pre-award survey.

CAGE codes for entities located outside the United States and its territories are called NATO Commercial and Government Entity (NCAGE) codes. The Romanian Ministry of Defense assigns NCAGE codes as part of the NATO Codification System (NCS). All Romanian business entities desiring to do business with the US Government must have an NCAGE code before the SAM registration can be completed.

Your Company NCAGE Code is **1H1JL**

SAM (System for Award Management)

The US Government's General Service Administration (GSA) has implemented an integrated government-wide acquisition and support system called the System for Award Management (SAM). This system is the single point for contractor/vendor registration to do business with the US Government.

MODPACK SYSTEM SRL

Registration with the US Government SAM system places all your public corporate information in one central database, which can be viewed and evaluated by US Government Agencies and other interested suppliers and vendors.

SAM does not require that your business provide any sensitive or private information, but it does collect information you have already provided to or available from other diverse public databases in one place.

SAM: Active
Registration

SAM Expiration Date:
